CLIENTÈLE ULTIMATE FOUNDATION PLAN

Entry Age: 18 - 64

The Clientèle Ultimate Foundation Plan is the first step in building strong foundations for your future. Clientèle recognises that all IFAs need to take care of their families in the event of unforeseen circumstances and at the same time understands that saving is an important part of everyone's life.

So in designing this product for IFAs, Clientèle has added a savings component to the valuable life benefits offered on the plan.

LIFE FOUNDATION: R150

01

R50,000 Accidental Death Benefit

(reduces to 50% at 76 and ceases at 80)

02

R50,000 Accidental Disability Benefit

(ceases at 70)

03

R30,000 Dread Disease Benefit

(reduces to 50% at 60 and ceases at 70 and excludes pre-existing conditions.)

Investment Percentage

From the first month 95% of the Savings Foundation premium starts accumulating an investment value.

Earnings Guarantee Benefit

Upon an IFA's death or total and permanent disability, a lump sum equal to 12 months' IFA earnings, as per the month prior to the claim event, is paid. In addition, a payment equal to the last monthly earnings earned will be paid for every month 2 years thereafter.

Investment Booster

Provided no claim or surrender has been submitted in the relevant period: for every 60 premiums paid the first 6 months' Life Foundation premiums will be paid into the Savings Foundation.

Inflation Protection

Built in annual increases protect your policy from the effects of inflation: premium increases by 10% Life Foundation Benefits increase by 6% annually.

Premium Pay Back Benefit

All Life Foundation premiums paid, are paid back in the event of the natural or accidental death of the Policyholder after a 6 month waiting period. The Premium Pay Back Benefit is forfeited when a policy lapses and starts again after re-sale.

IFA Business Fee Pay Back Benefit

All Business Fees paid, are paid back in the event of the natural or accidental death of the Policyholder after a 6 month waiting period. This is calculated from the commencement of the oldest Ultimate Plan and any Business Fees paid prior to the commencement of this plan are excluded. The IFA Business Fee Pay Back Benefit is forfeited when a policy lapses and starts again after re-sale. Only applicable on 1 IFA policy and should the IFA have more than 1 Ultimate policy, it will only be paid once.

Pay Back Benefits at 65 Option

If an IFA is under the age of 50 when purchasing a Clientèle Ultimate Foundation Plan, the IFA has the option to select 50% of the Premium Pay Back and IFA Business Fee Pay Back Benefits to be paid when the Policyholder turns 65. The balance of the premiums will then be paid upon death.

Clientèle Ultimate Foundation Plan Effective Annual Cost (EAC)

The Effective Annual Cost (EAC) is a measure which has been introduced to allow you to compare the changes you incur and their impact on investment returns when you invest in different financial products. It is expressed as an annualised percentage. The EAC is made up of four components, which are added together, as shown in the table below. The effect of some of the charges may vary, depending on your investment period (i.e. how long you continue to pay your policy). The EAC calculation assumes an investor terminates his or her investment in the financial product at the end of the relevant period.

The table below is illustrative and based on an assumed monthly Savings Foundation premium of R250 on the Clientèle Ultimate Foundation Plan (such a policy would have a total premium of R400 including R150 for the Life Foundation Benefit).

CLIENTÈLE WEALTH PLAN

The Clientèle Wealth Plan is a savings plan that gives you the opportunity to invest on a monthly basis with a trusted partner that has your best interests at heart. With a minimum premium of R300 per month over 20 years, this is a top class investment plan.

Investment % Entry Age: 18 – 54	
Initial Monthly Premium	Percentage Invested *
R300 - R400	90.0%
R401 - R500	92.5%
> R501	95.0%

**The amount invested will be determined at commencement based on your initial policy premium (which does not include the IFA Business Fee) less the IFA Earnings Guarantee Benefit premium times the relevant allocation percentage. The allocation percentage will not change during the lifetime of the policy (unless premiums are reduced). The percentage invested is as at February 2021 (subject to change). Terms and Conditions apply.*

Earnings Guarantee Benefit:

Upon an IFA's death or total and permanent disability, a lump sum equal to 12 months' IFA earnings, as per the month prior to the claim event, is paid. In addition, a premium equal to the last monthly earnings earned will be paid every month for 2 years thereafter. If this is your first product, the first R22 of your premium will cover the cost of the Earnings Guarantee Benefit.

Investment Booster:

Provided no claim or surrender has been submitted in the relevant period: Last 120 Earnings Guarantee Benefit premiums paid are added to your investment account after each 120 Earnings Guarantee Benefit premiums are paid.

Inflation Protection:

Built in annual increases protect your policy from the effects of inflation: premium increases by 10% annually.

Clientèle Wealth Plan Effective Annual Cost (EAC)

The Effective Annual Cost (EAC) is a measure which has been introduced to allow you to compare the charges you incur and their impact on investment returns when you invest in different financial products. It is expressed as an annualised percentage. The EAC is made up of four components, which are added together, as shown in the table below. The effect of some of the charges may vary, depending on your investment period (i.e. how long you continue to pay your policy).

The EAC calculation assumes an investor terminates his or her investment in the financial product at the end of the relevant period. The table is illustrative and based on an assumed monthly savings premium of R550 on the Clientèle Wealth Plan (such a policy would have a total premium of R572 including R22 for the Earnings Guarantee Benefit).

Impact of charges	Surrender After				
	1 Year	3 Years	5 Years	10 Years	20 Years

*Refer to page 9

References to Clientèle Wealth Plan Effective Annual Cost (EAC) and the Clientèle Ultimate Foundation Plan EAC Tables

* The Investment Management Charge is a reduction in the actual investment return because of charges incurred investment management. The actual reduction in return may vary significantly, as it will depend on how the markets perform during your investment in this product. The above example assumes an annual investment return of 6%. For the Clientèle Ultimate Foundation Plan / Clientèle Wealth Plan these are:

- Clientèle's participation in 10% of net interest, investment income, capital appreciation and/or losses
- The management charge levied by the external fund manager which is 0.3% of asset value plus 1% of investment returns
- The Clientèle Management charge of 1% of the Investment Account per annum (Clientèle Wealth Plan only)

** As the services of an advisor were not engaged, the Advice Management Charge is set to zero.

*** The Administration Charge consists of unallocated premiums.

For the Clientèle Ultimate Foundation Plan this is a fixed charge of 5% of the monthly Savings Foundation premium you pay. For the Clientèle Wealth Plan, this will depend on the size of the monthly premium. The unallocated proportion currently ranges from 5% to 10%. Based on the assumed monthly savings premium of R550 used in the above calculations, this charge is 5% of each monthly premium you pay. For lower premiums, the charge would be higher.

****Other charges is a catch-all, which measures other costs that you will incur.

If you surrender your policy within 10 years, these are a percentage of the Investment Account (refer to table in policy document) and zero percentage of Investment Account if you surrender after 10 or more years plus R500 Policy Surrender Charge; where the total charge is limited to 30% of the Investment Account.

This means that the longer you keep paying the policy, the lower the Effective Annual Cost will be. For example, if you surrender your Clientèle Ultimate Foundation Plan after 3 years, the Effective Annual Cost will be 16.6% and 15.7% on a Clientèle Wealth Plan if the client surrenders after 3 years. However, if you surrender it after 20 years, this cost drops to 1.6% on the Clientèle Ultimate Foundation Plan and 2.7% on the Clientèle Wealth Plan. Remember that you will get the maximum benefit from your Clientèle Ultimate Foundation Plan / Clientèle Wealth Plan if you invest for the full term.

The Effective Annual Cost (EAC) is an annualised cost, which means the calculation takes into consideration the extra yearly return you need to earn on the amount after charges, in order to get back to the same closing balance you would have had if there were no charges deducted.

The values in the EAC tables are for illustrative and explanatory purposes only, based on the following assumptions:

- An initial monthly savings premium of R250 on the Clientèle Ultimate Foundation Plan and an initial monthly savings premium of R550 on the Clientèle Wealth Plan.
- All future premiums are paid (an Unpaid premium Charge, currently R37, will be deducted from your Investment Account for every missed premium).
- There are no partial surrenders during the period.
- An investment return of 6% per annum (before any charges, but net of tax).
- A 10% annual premium increase.

The Effective Annual Cost shown would apply if the above assumptions hold, and you terminate your policy at the end of the period in each case.

The periods indicated in the table refer to full years:	
Years	Description
1 year	12 months and 12 paid premiums
3 years	36 months and 36 paid premiums
5 years	60 months and 60 paid premiums
10 years	120 months and 120 paid premiums
20 years	240 months and 240 paid premiums

For the Clientèle Ultimate Foundation Plan the amount invested will be the Savings Foundation premium only and does not include the Life Foundation premium or the IFA Business Fee.
